SUMMARY

Motivated Computer Science and Engineering graduate with training in Python Full Stack Development. Proficient in Python, Flask, MySQL, HTML, CSS, and JavaScript. Strong problem-solving and adaptability skills with a passion for continuous learning. Seeking an opportunity to apply my technical skills and contribute to organizational growth while enhancing my expertise.

EDUCATION

Computer Science and Engineering (B.Tech-Hons)

K L University

CGPA: 9.13

2022 – 2026

Guntur, India

INTERNSHIPS

Data Engineering Virtual Internship

01/2024 – 03/2024

AWS Academy (through EduSkills)

- Completed a 10-week Data Engineering Virtual Internship supported by AWS Academy.
- Gained hands-on experience in data processing, database management, and ETL concepts.
- Worked on data engineering fundamentals, data pipelines, and cloud-based technologies.
- Developed practical skills in data analysis, data modeling, and data workflow optimization.
- Certificate URL : AICTE/Naga Keerthi 🔗

SKILLS

Programming Languages

Python, C, SQL

Frontend Technologies

HTML, CSS, JavaScript

Development Tools

Tableau, Power BI, Excel, PowerPoint

Backend Technologies

Flask, Django, MySQL

Core Competencies

Problem-Solving, Logic Thinking

CERTIFICATES

AWS Cloud Practitioner

- Issued: 2024-05
- Cloud Foundations
- Certificate URL : AWS/Naga Keerthi 🔗

Red Hat Certified Enterprise Application Developer

- Gained knowledge of web applications, databases, and enterprise software development.
- Demonstrated proficiency in building and deploying enterprise-level applications.
- Certificate URL : Red Hat/Naga Keerthi 🔗

Linguaskill

- Certificate demonstrating proficiency in English language
- Certificate URL : Linguaskill/Naga Keerthi 🔗

LANGUAGES

• Telugu

• Hindi

• English

PROJECTS

Online Food Ordering System

- Orchestrated a full-stack ordering platform using MERN stack (MongoDB, Express.js, React.js, Node.js).
- Crafted an adaptive React.js interface with seamless cross-device usability.
- Deployed efficient RESTful APIs enabling live order tracking, authentication, and role-based access.
- Incorporated secure payment workflows with advanced encryption to safeguard transactions.

Event Management System

- Engineered an intelligent scheduling solution in Python with MySQL for streamlined event coordination.
- Structured relational database models ensuring optimized storage, indexing, and integrity.
- Constructed a user-centric dashboard for effortless event setup, updates, and reporting.
- Automated notifications through email/SMS pipelines, enhancing engagement and minimizing manual effort.

Smart Calculator Controlled by Hand Gestures

- Implemented a gesture-recognition calculator utilizing Python, OpenCV, and Mediapipe for touchless operations.
- Applied advanced computer vision algorithms to achieve high-accuracy operator identification.
- Designed an interactive graphical interface for real-time gesture feedback and output visualization.
- Enhanced accessibility by enabling contact-free control, supporting assistive technology adoption.

STRENGTHS

Leadership

Possess strong leadership qualities.

Stress management

Capable of performing effectively under pressure.

Problem solving

Proactive in taking initiative to solve complex problems.

Adaptability

Enthusiastic about exploring and adapting to emerging technologies.

ACHIEVEMENTS

Mission Clean Krishna Godavari Canals

Team Leader | Smart Village Revolution

- Led a 200-member team in a community-driven environmental conservation initiative.
- Coordinated awareness and participation activities to support river restoration efforts.
- Demonstrated leadership, team management, and project coordination skills.

03/2023 – 05/2023

Vijayawada, India
